Abrasive Flap Wheel

Surya Polishing Wax

Wax & Oil Based Compounds & Powder
Universal Standards – Export Quality

1. Emery, 2. Cyna, 3. Rouge, 4. Green, 5. Pink, 6. White
and our New Formula
7. Purple Polishing Compound

SWPC0100

Surya White

Polishing Compounds

This oil based compound is courser than Red Rouge. Used for removing deep scratches from soft metals or as a polishing compound on Acrylic, Plastic, Wood, & all soft metals e.g. Aluminum, Silver etc

Surya Green

Polishing Compounds

The Green polish is highly used to finish Stainless Steel to a high luster mirror like finish & for other metals also e.g. Stainless Nickel but not suggested for Plastic and Softer metals like Silver.

SWPC0200

Surya Rouge

Polishing Compounds

Red rouge is used to finish for buffing soft metals e.g. Gold, Silver, Copper, Brass and bath fittings for a brilliant high lustrous finish & will not scratch the finest of soft metals. Polish Brass, Copper & Nickel to a mirror finish.

SOPC0300

Surya Emery

Polishing Compounds

This emery polish is course compound mostly used for cutting & preparing materials to be buffed especially Stainless Steel but also for Aluminum, horn & wood. Shall not be suggested for plastic & softer metals e.g. gold.

SEPC0400

Surya Pink

Polishing Compounds

This polishing compound is used for both the cutting and polishing to ~~Aluminum and mainly Stainless Steel~~ bringing out a high luster even on wood.

SPPC0500

Surya Cyna

Polishing Compounds

This versatile polishing compound is safe for use on almost all materials even plastic but it can't be used on low melting point plastic. Use confidently for finishing purpose to all metals especially Stainless Steel.

SCPC0600

Surya Purple Polishing Compounds

This purple polish is course compound mostly used for all soft as well as hard metals to be buffed especially to achieve high finish and long lasting results. Shall not be suggested for items made out of plastic & wood.

SAPC0700

Director's Message

Mr. Vikas Bansal
Founder & Director

Begins with an extraordinary vision, Sangam Industries was founded by myself in 2002 for an endless journey to serve quality & commitments. History always defines our passion of serving industry with best products than any others, and the new generation today continues to inspire and attract new clients around the globe. All above than just a name – Sangam Industries is a Legacy of passion, and adopted by the new generation & continues to collaborate it's time for serving only the best products to the industry.
